

Amy brings several years of dedicated professional experience, in the non-clinical domain of Breast Center operations. With a keen eye for detail and innate desire to learn, Amy is an indispensable team member. Her specialized skills encompass many facets of the clinic; insurance authorizations, billing, financial counseling, clinic schedule management, customer service, medical records and overseeing operations. Her multifaceted expertise ensures smooth processes and unparalleled patient care. Amy has a particular interest in preventing patient financial toxicity, her expertise and experience here is a true asset to breast centers.

Amy's educational background includes a degree in Health Information Technology and a certificate in Medical Coding. Her dedication to excellence is further underscored by her certification as a Certified Healthcare Access Associate (CHAA), a testament to her proficiency. Amy also possesses a diverse professional background to include veterinary operations which underscores her versatility and adaptability in different professional domains.

Beyond her professional endeavors, Amy cherishes quality time with her husband and two beloved dogs. Amy also volunteers her time caring for senior rescue dogs, embodying her commitment to giving back to the community. In her leisure moments, Amy enjoys gardening.
