Jorjan Boord is currently Team Leader RN for the Breast and Plastic Operating Room at Anne Arundel Medical Center (AAMC) Luminis Health, in Annapolis, Maryland. Under her 12 year tenure, and in collaboration with the lead breast surgeon, she has developed a highly functioning multidisciplinary Breast Team. She is widely recognized for her interdepartmental relationships with the Breast Center, Pathology, Oncology Social Work, Nuclear Medicine and others. She is the key member of a well-received, interdisciplinary forum that educates breast surgery patients and their families twice a month. As Co-Chair of the OR Breast Team Multidisciplinary meeting, Jorjan drives the agenda, tracks quality issues, and analyzes and produces team metrics that address First Case On Time Starts, Turnaround Time, HER2 Ischemia Compliance Rate and accurate specimen handling. This committee meets regularly, is now intercampus in nature, and consists of the breast surgeons, plastic surgeons, Preop and PACU RNs, the OR team and the anesthesia liaison. Through her leadership, Jorjan has created interdisciplinary and interdepartmental processes that produce verified and validated results for a HER2 Ischemia Compliance Rate of 95%-100% and 0% specimen error rate. Prior to her current position at AAMC, Jorjan served in several other leadership positions since she joined AAMC in 1995 including Nurse Manager OR, Preop and PACU, evening charge nurse, and Team Leader Neurosurgery, during which time she developed the cranial surgery program at AAMC.

Prior to joining AAMC in 1995, Jorjan enjoyed an 11 year stay at Johns Hopkins Hospital out of nursing school. Jorjan began her surgical nursing in 1996 in the Neurosurgery and Orthopedic Spine service line. Her progressive leadership positions included Senior Clinical Nurse, Nurse Manager Neurosurgery and Orthopedic Operating Room, and Nurse Manager on a Neuroscience Inpatient Unit. She applied this expertise at AAMC when she established their Neurosurgery cranial program.

Jorjan obtained her Bachelor of Science degree in Nursing with High Honors at the University of Maryland in 1986, and her RN First Assist Certification from Nevada Institute of First Assist in 2011. She maintains her Certified Nurse Operating Room (CNOR) certification and is a member of the Phi Kappa Phi Honor Society. In 2013, Jorjan studied and utilized the Team STEPPS program as the foundation for building a successful Breast Team.
